Appl. No. 10/556,655 Amdt. Dated August 2, 2007 Reply to Office action of May 3, 2007 Attorney Docket No. P16448-US1

EUS/J/P/07-3272

Amendments to the Specification:

Please replace the paragraph beginning at page 2, line 17, with the following rewritten

paragraph:

-- The European Patent Application EP 1069406 and German Patent DE 19738764

disclose a system for guiding a driver comprising the display of graphical information

representative of topographical characteristics ahead forehead of the driver. For

example, a graphical curve section indicates direction and radius of curvature of an

upcoming curve in the road. The type of guiding information aims to support a safe

drive. The displayed images are representative of objects and/or topographical

characteristics ahead forehead of the driver and may change display position, form, or

color in dependence of vehicle position and speed of vehicle.--
